

GOSH!!! What is actually HACKATHON ???

What is a hackathon? - A hackathon is a place where you spend 24 or 36 or 48 hours with software programmers, developers and (**P.S** : obviously with your age group ppl) who come together and build something awe-inspiring!!

Who can attend a hackathon? – *Yeah !!!* The straight forward answer is ANYONE who loves to learn and build cool stuffs!!

Is hacking illegal? – **LOL !!** Hacking is basically building something. It could be **ANYTHING!!!!!!**

Do I need to have programming experience? – **Yeah !!** To some extent but Mentors are also available 24/7. So if you attend hackathon without knowing what you want to do, that's perfectly fine because we will help u guys!

How much do I have to pay to attend a hackathon?(HACK 'O HOLICS) -
It's FREE.

Is it a team event? - **Undoubtedly YES.** You have to learn to work with people from different background, different skill set, etc. Teams include a maximum of 4 people. You can work all by yourself but I would highly recommend you work in a team. You'll learn a lot. *YEP!! Now I remember a quote to say, We can Do More when We Work Together!!! :p*

Why should I attend a hackathon HACK 'O HOLICS at St. Joseph's Group of Institutions? – There comes the Justification!!

1. Free Food. (Yeah !!! It's "The St. Joseph's" Food)
2. Free Transport
3. Make New Frnz!!
4. Win Exciting Prizes
5. Know where you stand in this competitive world. (Rofl !! I know it sounds SCARY!! :D Jus Kidding!!)

Should I bring my own laptop? Yes!! But we also provide you Desktop systems with 24/7 Net connection!!

Should v bring components if IOT related projects? YEAH Of course!!!
We will not provide any components here.
